Land also offers possibilities for development, in compliance with the applicable urban planning rules, making it possible to envisage a reconfiguration or a change of activity compatible with zoning.

The property is located on a cadastral plot AK 115, within the UZA7 zone of the PLU of the Nice Côte d'Azur Metropolis.

The total surface area of the land is 2,850 m², of which 1,674 m² are classified as blue zones.

The authorised footprint is set at 30%, for a maximum height of 7 metres at the sewer.

These rules allow the construction of an estimated floor area of approximately 502 m² per level, i.e. 1,004 m² on two levels.

An underground development could be envisaged, subject to technical studies and administrative authorisations.

In the UZA7 zone, the following uses are excluded: housing, hotels and tourist accommodation, agricultural or forestry activities, vehicle or material depots, campsites or motorized leisure areas, quarries, as well as earthworks not related to an authorized operation.
