We are delighted to offer for sale a highly sought-after parking space within the "Millefiori" Luxury Residence.

Access to the various parking levels is very easy thanks to wide and comfortable ramps (a rarity in the Principality), which make manoeuvring a breeze.

The space, marked out on either sides by two posts, offers a real advantage by protecting the vehicle and ensuring more comfortable parking.

This type of property, highly sought after on the market and attractively priced, represents an excellent opportunity for both residents of neighbouring buildings and investors.
